About

I am Kumara Guru, a Sr. Product Designer with over **6+ years** of experience. I am a process-driven designer, passionate about emerging digital products.

From ideation and wire framing to prototyping and final product delivery, I collaborate closely with cross-functional stakeholders throughout the design process.

Selective Experience

Innova Solutions (Feb 2025 - Present)

Sr. Product Designer

Working as a contract employee at Verizon through Innova Solutions. In AI&D Team collaborate with the product owner and leading the design effort for internal products such as **BeamX, TraceX, AIDEA and Insight360** while also providing design support for other internal tools like enhance usability and improve workflow efficiency across teams.

Euroland (May 2024 - Nov 2024)

Sr. Product Designer

Developed a scalable and reusable design system that accelerated design delivery by 2x for new client onboarding, enabling faster customisation and improved consistency across products. Additionally, provided end-to-end UX support and enhancements for the Share Graph internal application, improving usability and overall workflow efficiency.
